

# AI Agents, Automation & GenAI Program

## Build Future-Ready AI Applications ■

### Course Overview

Master AI Agents, Automation, and Generative AI using GPT, LangChain, and Python. This program focuses on real-world applications with hands-on projects and minimal theory.

### Skills You Will Learn

- GPT APIs • LangChain • AI Agents
- Automation • Prompt Engineering • RAG Systems

### Hands-on Projects

- AI Chatbot
- AI Content Generator
- RAG-based Q&A; System
- AI Automation Workflow

### Career Roadmap (Beginner → Job)

Stage	What You Learn
Beginner	Python + AI Basics
Intermediate	GPT + Prompt Engineering
Advanced	AI Agents + Automation
Job Ready	Projects + Deployment

### Program Benefits

- 100% Practical Learning
- Certification Included
- Internship Opportunity
- Job-Ready Skills
